Testimonials.
We, the undersigned Physicians practising in the city of San Francisco, have examined the result of the analysis made by Dr L. Lansweert, Practical Chemist, of the Napa Soda Springs in Napa. The water, according to this examination, possesses aperient, antacid and tonic properties, which cannot fail to be very beneficial in the treatment of chronic diseases, and offering a pleasant, healthful and invigorating beverage.

TUESDAY MORNING, JULY 29TH, 1873.

The Vox Populi.

Under the form of administration known as Responsible Government the Ministry are supposed to be ever anxious to know woat popular opinion is upon all the leading topics of the day. "What saith the People?" is presumed to be the standing enquiry; and thus it is that Ministers are supposed to avail themselves of every public gathering for the double purpose of learning the views of the people and enunciating their own. In what singular contrast with all this is the conduct of the present Government. The local organ exhibits a very significant but paradoxical disinclination on the part of its masters to listen to the *vox populi*. The Saanich meeting is sneeringly alluded to as a "hole and corner" meeting, and a "signal failure" because, it must be presumed, that meeting was nearly unanimous in denunciation of the present Administration. The Esquimalt meeting is similarly characterized, presumably for a like reason. To their own sorrow and discomfort, the Ministry know well that the Saanich meeting was neither a "hole and corner" one nor a failure; and every fresh sneer at it constitutes but an additional "nail in their political coffin." Every effort was doubtless made to frustrate any attempt at an expression of popular opinion at Esquimalt; but the best evidence of non-success is found in the fact that the Premier *did not dare to face it!* He "funked" in the most craven and unstatesmanlike manner. Not a Minister dared to show himself, so deep was the misery convictions of political guilt. They knew that they had imposed upon the people with a sham dock scheme, and they had not the nerve to face the exposure. But surely the boasting Premier does not seriously expect to succeed in stemming the tide of popular opinion by such means. To hope to do so is to exhibit very gross ignorance or very great impertinence. Let the Ministry sneer away at public meetings. The people will know how to avenge the insult.

A Growl from the Russian Bear.

The *Mir*, one of the great daily papers of the Russian capital, published an extremely acrimonious article on England and her treatment of the Shah of Persia. Ever since Russia was asked to define the Afghan frontier, the Russian Press have found it difficult to restrain their feelings, and the grand reception given to the Persian monarch has caused the malignity of *Mir* to boil over. It speaks about "Bloody Albion," "the hidden growl of the perfidious and cruel tiger," and alludes to the Sepoy mutiny as "the general rebellion, excited by English policy and sustained by English gold, to supply an opportunity for the plunder of the Indian Princes." "The English journals, Ministers and Parliament," says the *Mir*, "are endeavoring to give the Shah a 'brilliant reception.'" "Money is no object," it is added. "But if proud Albion is doing all she can to astonish the Shah by the pomp and luxury of her Reception, it is only to efface from his mind the pleasing reminiscences he took with him from St. Petersburg. It is clear that in all the festivities in honor of the Shah England is showing her spite against Russia, rather than her friendship for Persia." Stung by this act of treachery, the Russian journalist rushes into his long invective about intrigue and roguery and sanguinary dramas, interspersed with such exquisite metaphors as "the siren songs of the British tiger," who is intent on making a moral conquest. This is strange language for the Russian Bear to hold towards the British Lion when their cubs are mating!

The "Times" on Canada.

The *Times* devoted a very long leading article to the patriotic work of proving that the Imperial guarantee to the Pacific Railway was really neither more nor less than a bribe to induce Canada to sanction the Treaty of Washington. Having succeeded, to its own satisfaction no doubt, it ventures to express the following opinion on the feasibility of the scheme for the promotion of which the guarantee was given:—"Our own chief regret about the Canadian Guarantee is that we are about to help the Canadians to throw away many millions on a wild enterprise. Mr. Gladstone says it is no business of ours how Canada is about to spend the money, and we shall certainly respect the independence of the Canadian Parliament; but when we are entering upon a guarantee, whether for a Colony or an ally, the object upon which the guaranteed loan is to be spent becomes a matter within our consideration. Sir Harry Verney believes the railway from ocean to ocean will prove of immense advantage to Canada, and Mr. Robert Fowler, having heard flattering descriptions of the country through which it is to pass, is ready to be hopeful; but we suppose there is not a single man on the Treasury Bench who does not regard the project as a speculation upon which the savings of Canada will be ruinously wasted. It would have been kind to disabuse the Canadian mind of the notion that the Dominion must have an Interoceanic Railway because there is one in the States, and it is an aggravation of the arrangement by which the assent to the Treaty of Washington was procured that the price paid will do the Canadians more harm than good." Fortunately for the Dominion, probably for the Empire at large, the interest of the *Times'* utterances on Canadian affairs is only measured by their absurdity and by the extreme ignorance they display. In all probability, if the writer of the above extract were subjected to an examination, it would turn out that he knows about as much of Canada as he does of Central Africa; possibly a great deal less. It is a pity that the leading journal should be so ill-informed in respect to a most important part of the Empire,—a shame that it should always be saying illnatured and hurtful things about it.

England, the Colonies, and the United States join in after Dinner Amenites.

On the 15th Nov. last banquets were given simultaneously in London, England, and in Adelaide, Australia, at which these capitals at the extremities of Her Majesty's dominions shook hands by means of electricity. Not only were toasts reciprocated between these, but the hand of goodfellowship was held out to San Francisco. The various lines being joined up Adelaide was able to hold friendly converse with her American cousin, their electric messages on that memorable occasion passing through the Hall. On the company sitting down to dinner Earl Kimberly, the Chairman, sent the following message to the Australian Colonies: "The Company at the Australian Telegraph Dinner joins me in drinking prosperity to the Colonies, and in rejoicing at this fresh bond of union between the different members of the Empire." Before he had completed addressing the guests he received the following answer:—"Sir James Fergusson, Governor of Adelaide, to Earl Kimberly. Your message received. All passed off happily." The message was received with cheers which had scarcely died out when others flashed in from South Australia, Victoria and New South Wales, cordially reciprocating congratulations and good wishes. Then from the opposite quarter came in San Francisco to join in the electric parans. Curiously enough the state of the weather was not overlooked (how could it be where Englishmen were talking?) and it was ascertained that at both ends of the 40,000 miles of cables it was intensely hot, while at the centre of the line in London it was extremely cold.

AMERICAN SPRINGFORWARDNESS.—While we are laying on our oars, the Federal Government inactive, the English capitalists backward, and the great enterprise, which is to infuse new life and movement into this Province, viz: the Canadian Pacific railway, languishing, our cousins, with that "spring forward" which so distinguishes them from the old stock, have located their terminus, are pouring inhabitants therein, rearing a city at Tacoma complete as to wharves, piers, docks, &c., and provided, through capital subscribed in San Francisco, with everything that can make it attractive in the shape of hotels, parks, theatres and public buildings. But still more; the Railway Company, *mirabile dictu*, calculate upon having the cars running to the ocean terminus in 90 days.

CONGREGATIONAL UNION.—Rev. G. H. Atkinson, D.D., General Agent in Oregon and Washington Territory for the American Home Mission, accompanied by his son, paid this city a visit yesterday on business connected with the Mission. Mr. Atkinson has pitched a tent at Tacoma in the interests of the Mission, in which he has established the Congregational Union Free Reading Room. On Sunday divine service was held in the tent by the Rev. Mr. Lindsley of Portland, when there was a very large attendance. The Mission has our earnest wishes for its prosperity.

DEATH OF A NOTED ISRAELITE.—A cable dispatch records the death of Alderman Sir David Salomons, Bart., the colleague of Gladstone in the British Parliament, for the borough of Greenwich. No member of the Jewish persuasion in modern times has had a more eventful career. As a merchant, financier, author and statesman, Sir David Salomons was the foremost man in public life among his co-religionists in the United Kingdom. It was through his exertions that Jewish citizens obtained full municipal privileges in the city of London, and he opened the closed doors of the British Parliament to the Jewish subjects of Britain

THE *British Colonist* complains that our customs authorities refuse to admit fish-oils from their region duty free. Reason assigned—British Columbia was not a part of Canada when the treaty was made. A shipment of oil has been made to San Francisco to test the matter, on an appeal to the Secretary of the Treasury. It is rather rough on our Victoria cousins that they should lose San Juan and also fail in obtaining a market for their fish-oil.—*Olympia Courrier.*

THE ALETHEA.—The name of this bark has been changed to Remijio and she has been placed under the Nicaraguan flag. Her commander is Capt. Howard, who shipped a crew yesterday and will proceed to Departure Bay to-day and take in a cargo of Wellington Mine coal for San Francisco. The Remijio will be continued in the coal-carrying trade.

BATHING.—It is astonishing that a city of the pretensions of Victoria cannot afford some accommodation for bathers. A few planks nailed together at some convenient place in the harbor would answer the purpose. Bathing and particularly swimming should be taught and encouraged. A seaport town whose young men are not expert swimmers is an anomaly.

THE sailors whose bold levanting we noticed on Friday, are in close confinement on H. M. S. Tenedos and will be tried before the Vice-Admiral.

MR. NATHAN, M.P., leaves England to-morrow to be in attendance upon the meeting of Parliament on the 14th prox.

They have been indulging in a Chinese funeral at Seattle.

The Hon. Selucius Garfielde addressed a public meeting at Seattle on the subject of their Railway to Walla Walla. He went in strongly for the enterprise and was enthusiastically applauded. Articles of incorporation have been filed. The capital stock is ten millions—one hundred thousand shares at one hundred dollars each.

Reports from Kitatas Valley are highly favorable as to crops, cattle and general well-doing. The people are enthusiastic about the Seattle and Walla Walla Railway.

Port Townsend is to be put in a state of repair and to be garrisoned by regular troops, probably five companies.

Saturday's *Courier* says:—Gen. Milroy is to start this morning for the eastern part of the Territory to meet an assemblage of some 5,000 or more Indians who have never been treated with. General Jeff C. Davis will be present, and it is expected to be an event of much importance to the upper country. The Indians are said to have been frightened into their present action by the heavy earthquakes of last winter.

CHINESE IMMIGRATION.—In an article on this subject the Ottawa *Citizen* says "We dare say the time is not far distant when we shall see in British Columbia a very considerable Chinese population The moment the Canadian Pacific is commenced, there will probably be an influx of Chinese into the labor market to meet the large demand that will necessarily arise for servants, navvies and laborers of all classes."

MUSIC.—Prof. Schaffer's band played last evening from the cupola of the Driard House selections from the "Bohemian Girl," the "Daughter of the Regiment," "Norma," the "Imperial Galop," "Albert Polka," and the "Marseilliese." The execution was very good. The band will soon appear in a handsome new uniform.

FROM PUGET SOUND.—The steamer North Pacific, Capt. Starr, reached this port yesterday at 11:30 p. m. She brought some cattle, lambs, Mails, Wells Fargo's Express and 39 passengers.

FOR SKEENA RIVER.—The steamer Maude, Capt. Holmes, has been chartered to go to Skeena River on Friday next, with passengers and goods.

A Card.

STORE STREET, July 28, 1873.

EDITOR COLONIST.—Sir,—As it has pleased your scribbling and would-be-facetious contemporary to take a mean advantage and to publicly insult the Store street traders in his columns, I beg leave through the medium of your paper to remind him that the so-called "STORE STREET RAT" is in every respect more of a man than the effeminate "Squeaking Tom," who, it is plain, has no claim to the title of a man, much less a gentleman. Yours, &c.,

STORE STREET TRADER.

European Mail Summary.

A correspondent, writing from Dumfriesshire, states that grouse have been dying in considerable numbers from disease all through May, and nests are reported by the shepherds to be very scarce. The death is reported to be the greatest along the Queensberry range of hills, above Racahie, and on the hills above Moffat, and at the head of the Dyrte. The prospects of other game seem quite an average.

DELAYED DISPATCHES

Europe.

NEW YORK, July 54.—A correspondent, writing about the recent earthquake in North Italy, says the effects of the earthquake at the village of St. Pide, Fellaro, were terrible. It was at the feast of St. Peter, patron saint of the place. The church was gaily decorated and crowded with worshippers, when, without a moment's warning, an undulation swept beneath the village and down came the roof and walls of the church building on its living contents. Those nearest the door were able to escape, but of the remainder thirty-eight were killed—eighteen men and twenty women—and a great number severely hurt. The priest officiating had his arm broken, but others assisting escaped. The entire village was one scene of fallen and falling houses.

MADRID, July 23—A Prussian frigate, which was dispatched by the German Consul in pursuit of the Spanish war steamer Vigilante, which was captured by the Insurgents, overhauled and captured her on route for America (?) whither she was bound for the purpose of proclaiming that province an independent Canton. Senor Galeoeza, deputy to the Cortes, was in command of the Vigilante. The German ambassador has offered to deliver the captured vessel into the hands of the Government.

SAN FRANCISCO, July 25.—Jane Corbett, a young woman 24 years of age, was arrested this evening on a charge of felony in refusing to support her four children, the oldest of whom is six years, and the youngest at the breast. She says she don't see the use of raising any more brats.

The reported withdrawal of the steamship line to Honolulu is denied at headquarers.

SAN FRANCISCO, July 25.—Russell was executed at 25 minutes past 2, P. M. He ascended the scaffold with a firm step, preceded by Sheriff Adams and followed by Rev. Mr. Carpenter and Rev. Williams. The condemned man stepped on the fatal drop, glanced a moment with his large, dark, lustrous eyes at the crowd, up at the sky, through the lights of the corridor and at the beam above his head. Dr. Carpenter asked if the statement given to him was true. He replied, "It is true, so help me God." Russell smiled when the officers commenced pinioning his arms and legs, carefully adjusted his feet so as to facilitate their work and aided all in his power to adjust the fatal noose. He was spared the torture of hearing the death warrant read. When the black cap was pulled over his face he leaned toward Mr. Carpenter and spoke. The latter lifted the cap partially off his face, when Russell kissed his lips and said, "God bless you." The signal was the given, the spring touched, and Charles A. Russell was no more. He died with scarcely a struggle.

Rev. Mr. Carpenter exclaimed: "Now they have done this to him, they can do more." Sheriff Adams, the clergymen and several others on the scaffold were affected to tears. Russell gave to Rev. Mr. Carpenter a full history of this life which, he recipient says, will place his character in a better light before the public.

A BABY FOR A HALFPENNY.—On Thursday evening, a workingman named Edwd Jones was proceeding home along the Ashton road to Gladwick, near Oldham, when he met three women, each with a child in arms. As he was not a little in liquor, he at once addressed the nearest. "How much for the baby?" and was as promptly answered, "A ha'penny." "Done; I'll hae't," he said, paid the money, and marched off with the child, fully expecting the mother to follow and reclaim her progeny. She had no intention of doing anything of the kind, however, probably thinking herself very lucky to get rid of it so easily, and allowed the purchaser to reel off to the nearest tavern. There he discussed sundry pints of beer, and then came to the conclusion that nothing remained for him but to take his voluntary newly assumed charge home. He did so greatly to the amazement of the "missis," who has no fewer than six children of her own, and did not understand the purchase transaction at all. She gave information to the police, and herself walked near to Ashton in search of the mother. She had no success, and the baby still remains a well-treated, but the very unwelcome guest in her home.—[*Dundee Advertiser.*

HORRIBLE DISCOVERY.—On the night of the 25th. of June, on the arrival of the Irish mail train from London at Rugby, at 10 25, the fireman proceeded to rake out the fire box of the engine, when he was horrified to discover the head of a man, the hair slightly singed and the face partially roasted, but with the features partially recognizable. The station-master Mr. Livock, at once telegraphed up the line and search was made, when a mutilated trunk was found about a mile and a half from Willesden Junction on the Rugby side. The body is believed to be that of a gentleman returning from a cricket match, On Sunday afternoon the head was sent to Willesden, in charge of a police constable, for identification, and for the holding of an inquest.

TEA DRINKING INJURIOUS.—Matthew Brown, the English essayist, makes the bold assertion that the use of ale, wine and beer are harmless compared with tea drinking. He pronounces tea the real enemy of modern civilization, the secret poison that is eating away the vigor of the age."

A Warning to the Inhabitants of Victoria and Vicinity.

FOR TWO YEARS PAST WE HAVE offered to supply your leading Butchers with meats from one to two cents per pound less than they have paid other parties. For certain reasons they have spurned our offers. These reasons have worked detrimental to your interests as well as ours. We have now made arrangements to supply one of your worthy citizens, Mr. John Parker, with meats for your market, when he cannot purchase sufficient supply on your Island and at prices to compete with other firms. We think you will all be able to discern a marked difference in the prices which he will ask from those which you have had to pay for the past few years.

We wish to warn all persons who desire meats at reasonable rates against entering into any contract with other parties until they have learned the prices which Mr. Parker will ask.

Very respectfully,

BOOTH, FOSS & BORST.

Medical.

FRENCH MEDICINES

Prepared by

GRIMAULT & CO.,

Pharmaceutical Chemists,

8, Rue Vivienne,

PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Leras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, add is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

GRIMAULT & CO.'s Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration and restors the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one of the most recent scientific discoveries in therapeutics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconveniences of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Profess. Claude Bernard, must secure the preference for our preparation of pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh bronchitis, hæmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & Co.'s Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s Pectora Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.

Asthma, Asthma. GRIMAULT & Co.'s Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomnia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s Vermifuge Santonima Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these drages, the composition of which is well known and always the same, instead of those which are called vegeable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Codliver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure iodide of iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.

15,000.....On 1st August, 1873;
75,000.....On 1st April, 1874;

Payable in Twenty-five years from the date thereof.

The Corporation of the City of Victoria having the right to repurchase from time to time the said Debentures, for the purpose of withdrawing the same from the market, the numbers of the Debentures so to be repurchased shall be decided by a ballot, of which One Month's notice shall be given, by publication in the Government Gazette or in one or more of the local newspapers. Ample security is thus given to those wishing to invest in Debentures.

A deposit of Ten per cent. on the amount of Debentures applied for will require to be paid into the Bank of British North America to the credit of the Water Works account, a receipt of said deposit to accompany the application, and on the Debentures being issued, they will be placed in the said Bank and handed over to the party who presents the Water Commissioner's Certificate of his being entitled to receive the said Debentures on his paying the full equivalent as mentioned in said Certificate; and in the event of the Debentures not being fully paid for on the day of issue abovementioned, the deposit of the Ten per cent. shall be forfeited to the use of the Water Commissioner for Water Works purposes.

Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the works to be constructed. The proposed Works consist in bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of between five and six miles, and present no Engineering difficulties in carrying out the undertaking.

Forms of application for Debentures, with Bank Deposit Receipt attached, as well as any further information that may be desired, can be had by application personally or by letter addressed to the Commissioner.

DR. We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.
